

Md Moshin Khan

Kolkata, India | +91 7008901279

moshink0786@gmail.com · [LinkedIn](#) · [GitHub](#) · [Portfolio \(Live\)](#)

Technical Stack

Languages : TypeScript, JavaScript (ES6+), SQL, C++, HTML5, CSS3
Frameworks : Next.js 15, React.js, Tailwind CSS v4, Redux Toolkit, Framer Motion
Backend/Tools : Node.js, Prisma ORM, PostgreSQL, Firebase, Git, Vercel, Zod
Specialized : AI Engineering (Groq SDK/LLMs), 3D Web (Three.js/Matter.js), Cryptography (AES)

Featured Projects

- Interactive 3D Portfolio** | Next.js 15, Tailwind v4, Matter.js, Three.js | [\[Live Demo\]](#) Jan 2026
 - Architected a high-performance portfolio using **Next.js 15** and **Tailwind v4**, featuring a dynamic "Hazard/Cyber" theme system that auto-adapts to user time zones.
 - Engineered a physics-based UI using **Matter.js**, allowing users to interact with gravity-bound skill elements, significantly increasing session duration.
 - Optimized heavy 3D assets and animations (RGB glitch, sonar pulse) to achieve a **100/100 Lighthouse** performance score via lazy loading and code splitting.
- Truth Is Optional** | Next.js 15, Groq SDK, AI Integration | [\[Live Demo\]](#) Dec 2024
 - Developed a "Reality Distortion Simulator" utilizing **Llama 3.3 (via Groq)** to demonstrate media framing by rewriting neutral facts into 5 distinct psychological narratives in real-time.
 - Designed a "Cyber-Minimalist" interface featuring procedural audio feedback (Web Audio API) and matrix-style text decryption effects.
- CryptoPlace** | React, Vite.js, CoinGecko API | [\[Live Demo\]](#) Nov 2024
 - Built a real-time financial dashboard tracking global cryptocurrency assets with sub-second data updates.
 - Implemented complex global state management via Context API to handle multi-currency conversions (USD/EUR/INR) instantly.
 - Integrated interactive **Google Charts** to render dynamic 10-day historical price trends.

Professional Experience

- Frontend Web Developer Intern** Nov 2024 – Dec 2024
Cod-Tech IT Solutions Remote
 - Developed pixel-perfect, responsive user interfaces using **React.js** and **Tailwind CSS**, ensuring 100% layout consistency across devices.
 - Boosted application performance by **15%** through advanced image optimization and React component refactoring.
 - Streamlined development workflows using Git version control and collaborative GitHub pull request reviews.
- Computer Science Expert** Feb 2023 – Aug 2023
Chegg Remote
 - Authored 3,000+ technical solutions for complex algorithms and data structure problems with **90%+ accuracy**.
 - Simplified advanced programming concepts for global students, maintaining a top-tier satisfaction rating.
- Cybersecurity Trainee** Dec 2023 – Jan 2024
ITorigin Academy Kolkata, India
 - Executed network vulnerability assessments using **Nmap** and **Wireshark** to identify security loopholes.
 - Completed intensive labs on penetration testing and defensive network protocols.

Education & Certifications

- Institute of Management Study** Kolkata, India
Bachelor of Computer Applications (BCA) — CGPA: 7.1/10 2025
- Certifications:** Oracle Certified AI Foundation Associate · Google UX Design Foundation
